Specimen Submission and Testing

List the number of tubes or pouches submitted			**Collection Date**
Trichomonas foetus Transport Tubes		*Trichomonas foetus* In-pouches	
☐ *Tritrichomonas foetus* PCR ☐ Pool samples (can pool up to 5/pool)		☐ *Tritrichomonas foetus* Culture	

POOLING OF SAMPLES WILL ONLY BE CONDUCTED UPON REQUEST

Supply Order (insert the number of tubes or pouches needed)

Trichomonas foetus Transport Tubes		*Trichomonas foetus* In-pouches	

Collection and Submission Requirements

- Submit samples in the appropriate, unexpired media. (Transport tubes for PCR and In-pouch for culture)
- Samples must be inoculated into media immediately after collection and received within 5 days of collection (unless frozen).
- Transport tubes for PCR should be frozen or refrigerated and shipped on ice.
- In-pouches for culture should be shipped at room temperature. DO NOT FREEZE
- If temperatures are extremely hot or cold contact the lab at 402-472-8470 for shipping instructions.
- Pooling of samples can only be performed by the laboratory. Samples cannot be pre-pooled within the pouch or tube by the submitting veterinarian.

Export Testing

It is the responsibility of the referring veterinarian to request the appropriate tests for export. The VDC will run only tests requested by the referring veterinarian. For export information and regulations, call (State Veterinarian) 402-471-2351 or (Federal Veterinarian) 402-434-2300.
